Don't wait for the perfect moment. Take the moment and make it perfect.

Lord, so many times I focus on the 'imperfect' in the moment... maybe it's a big thing or maybe it is just a small distraction. But I miss opportunities and joy because I am waiting for perfection. Lord, help me to savor each moment as it is... to see it through your eyes... to realize that through you, it is perfect just the way it is.

Amen
